GENERAL

- 1 = Excellent
- 2 = Very Good to Excellent
- 3 = Very Good
- 4 = Very Good to Good
- 5 = Good
- 6 = Fair to Good
- 7 = Fair
- 8 = Fair to Poor
- 9 = Poor

MATURITY

- 1 = Earliest
- 9 = Latest

HEIGHT

- 1 = Shortest
- 9 = Tallest

COLEOPTILE LENGTH

- 1 = Longest
- 9 = Shortest

**These agronomic assessments are made by agronomists and reflect each variety's relative performance within these characteristics during the 2014 crop year. Specific conditions may cause variations within these characteristics. These relative protection values are based on current pest and disease populations. These have been known to shift periodically and may cause changes in specific ratings. Resistance to many other disease and pests is sensitive to environmental conditions, plant development stages and the presence and intensity of other diseases which may result in evaluation inconsistencies. This chart is updated annually to reflect current trends.*
